

Contents

Preface	vii
Acknowledgments	ix
Contributors	xi
1. Comprehensive Examination for the Early Diagnosis of Glaucoma	1
2. Glaucomatous Optic Neuropathy and Its Staging	11
3. Gonioscopy	23
4. Perimetry in Glaucoma	39
5. Classifications of Visual Field Loss in Glaucoma	65
6. Optical Coherence Tomography in Glaucoma	75
7. Target Intraocular Pressure in Different Types and Severities of Glaucoma	91
8. Glaucoma Suspect Management—Open Angle	105
9. Glaucoma Suspect Management—Shallow Anterior Chamber with Narrow Angles	111
10. Primary Open-Angle Glaucoma	123
11. Primary Angle-Closure Disease	141
12. Juvenile Open-Angle Glaucoma	161
13. Childhood Glaucomas	173
14. Secondary Glaucomas I: Pseudoexfoliation and Pigment Dispersion	191
15. Secondary Glaucomas II: Pseudophakic, Aphakic, Malignant, and Post-Uveitic Glaucomas	201
16. Traumatic Glaucoma	215
17. Steroid-Induced Glaucoma	227
18. Neovascular Glaucoma	239
19. Medical Therapy in Glaucoma	247
20. Laser Therapy in Glaucoma	259
21. Diagnosing and Managing Progression in Glaucoma	269
22. Trabeculectomy and Its Modifications	295
23. Glaucoma Drainage Devices	319
24. Other Glaucoma Surgeries	327
25. Glaucoma Related to the Lens and Its Surgery	333
26. Low-Vision Aids for Glaucoma Patients	343
27. Lifestyle Modifications for Glaucoma	347
Index	349
