## Clinics in Colon and Rectal Surgery

Official Journal of the World Society of Child Science

**Editor-In-Chief(s):**

**Scott R. Steele**

ISSN: 1531-0043

Volume: 36

Issues Per Year: 6

Clinics in Colon and Rectal Surgery is a review journal that publishes topic-specific issues on diseases of the small bowel, colon, rectum, and anus.

Designed for clinicians, researchers, and educators involved with diseases of the intestinal tract, the journal covers a broad spectrum of basic information, controversial clinical issues, and established and innovative diagnostic techniques.

Issue topics comprehensively cover the entire specialty over a 3-4 year period, allowing the articles to serve as study material for educational programs and certifying examinations. The inclusion of research and clinical material also allows physicians to remain knowledgeable of current advances in the specialty.
