Neurosurgery Updates

Critical Care for Neurosurgeons

Neurosurgery Updates: Critical Care for Neurosurgeons, Volume 3 is a constellation of chapters which gives a basic workflow for neurosurgeons to manage neurosurgery patients in the perioperative period. The book is suitable for practicing neurosurgeons as well as residents who are the backbone of any neurosurgical teaching program. The chapters have been contributed by experienced neuroscientists and critical care experts. Each chapter is based on the critical care aspects of a particular domain like trauma, pediatric neurosurgery, vascular neurosurgery, and the like. The experts have painstakingly curated the chapters and given a working suggestion of dos and don'ts.

ISBN: 9789392819957

Binding: Hardback

Volume: 3

Date: December 2022

Pages: 168

Illustrations: 54

Price: ₹ 2,495/-

Up-to-Date Overview of Latest Advances in Spine Surgery

In recent decades, technological innovations have revolutionized spine surgery. The integration of the devices tailored to MIS spine techniques has allowed the spine surgeons to tackle more complex spinal pathologies and generate new ways to improve clinical outcomes. Spinal Deformity Surgery: Tips from the Masters, by renowned orthopaedic spine and neurospina surgeons, provides practical, evidence-based insights into important surgical decisions that we face every day. The primary goal of this book is to help the spine surgeons navigate a daunting number of available devices and techniques and leverage the optimal ones to achieve improved patient outcomes. Organized in 22 chapters, the text starts with a history of deformity in spinal surgery.
