The Cutting-edge and step-by-step approach to the management of ROCM

COVID-associated mucormycosis (CAM) considered to be an “endemic within a pandemic” affected the Indian subcontinent during the second wave of COVID-19 pandemic. This book deals with all the aspects of rhino-orbito-cerebral mucormycosis (ROCM) in its entirety, and it is unparalleled in the respect that it is wholly based on Dr. Narayanan Janakiram’s clinical and surgical experience.

Discover the Hallmark Techniques for Facial Nerve Management

Atlas of Facial Nerve Surgeries and Reanimation Procedures is more than a project for the author. It is the culmination of her passion, as well as lifelong quest and pursuit, for perfecting the execution of management of facial nerve in different situations. The main objective of this atlas is to provide an insight to the reader regarding the anatomy and normal functioning of the facial nerve, besides a guidance on step-wise evaluation and management of facial palsy, aimed at achieving optimal results. The elaborate description about the post-treatment recovery of the functioning of facial nerve and facial muscles is an important highlight of this atlas.

The Definitive Guide to Clinical Mastery and Exam Success

An update to the Indian otolaryngology curriculum has necessitated changes in the way students interact with, understand, and progress thinking in the subject. Changes in the field of otorhinolaryngology over the last three decades have seen newer concepts and technologies being incorporated. Textbook of Otorhinolaryngology—Head and Neck Surgery: A Competency-Based Approach for Undergraduates discusses these contextual changes, covering the new curriculum in stimulating and easily accessible ways.
