

Stuttering and Related Disorders of Fluency

Author : Conture, Curlee

Edition : 3

Year : 2008

Pages : 392.00

ISBN : 9781588905024

Description

Enlisting the expertise of leading clinicians, researchers, and theorists, the editors have here compiled a complete reference for the current clinical strategies for treating stuttering and fluency disorders in both children and adults. The third edition of *Stuttering and Related Disorders of Fluency* retains the comprehensive scope of previous editions and provides thorough guidance for the early assessment, diagnosis, and the treatments and adjunctive therapies available for each disorder.

Features:

- ▶ Broad overview of the current knowledge regarding the influence of language and phonology on stuttering, and the implications these factors have for assessment and treatment
- ▶ In-depth coverage of cluttering by the country's leading experts
- ▶ Expanded, up-to-date discussion of the assessment and treatment of stuttering in bilingual populations
- ▶ New sections addressing pharmaceutical approaches to stuttering, including the efficacy of such treatments as well as possible side effects
- ▶ Theoretical and practical approaches to counseling children who stutter and their families
- ▶ Chapters on adjunctive treatments such as self-help and mutual aid groups

Ideal for students in graduate programs and clinical practicum, this handbook will also serve as an invaluable reference for practitioners in the clinical setting.
