Edition : 2

Year : 2006

Illustrations : 653

Pages : 712.00

ISBN : 9781588904669

Price : \$300.00

Description

This new second edition of the best-selling *Atlas of Microvascular Surgery* is updated with the latest information on harvesting, fabricating, and dissecting vessels in all areas of the body. It features coverage of 45 donor sites with thorough review of anatomy and potential anatomic variations; step-by-step instructions for 110 techniques for flap harvesting and fabrication, including many of the perforator flap harvesting details; and descriptions for 39 procedures for exposure of recipient site vessels.

Highlights of the second edition:

- ▶ More than 650 color illustrations, including 115 new drawings, provide a visual guide to anatomy and possible variations
- ▶ Clear descriptions of 110 different flap-harvesting techniques, from planning and designing to harvesting surgical free flaps
- ▶ Discussion of perforator flaps based on the deep inferior epigastric artery, superior and inferior gluteal arteries, thoracodorsal artery, and lateral circumflex femoral artery
- ▶ Insightful review of the clinical indications for, as well as the advantages and disadvantages of, using specific donor sites helps the surgeon to approach each dissection with confidence
- ▶ Easy-to-reference organization according to upper extremity, lower extremity, trunk, and head and neck

All plastic and reconstructive surgeons, orthopedic surgeons, hand surgeons, neurosurgeons, and residents in these specialties will benefit from the wealth of information in this landmark book.
