Edition : 1

Year : 1993

Illustrations : 600

Pages : 252

ISBN : 9781626236158

Price : \$300.00

Description

This clinical atlas and CD combination provides the ideal educational mix for learning the technique for rhytidectomy. Heavily illustrated throughout, the volume reflects Dr. Hamra's vast experience in aesthetic facial surgery. The book documents photographically and artistically the operative steps for this extensive face lift as well as techniques for aesthetic improvements to the chin, neck, nose, and skin. Postoperative results for each of these procedures are demonstrated, with special insights into the tips and tricks that help Dr. Hamra achieve the most aesthetic appearance for his patients.

The CD-ROM, winner of the 1991 ASAPS Award for Best Video, is sold with the book. Computer-generated art combined with operative footage presents the composite rhytidectomy procedure in its entirety.
