

Teaching Atlas of Urologic Imaging

Author : Older, Bassignani

Edition : 1

Year : 2009

Illustrations : 372

Pages : 362.00

ISBN : 9781604060164

Price : \$154.99

Description

Teaching Atlas of Urologic Imaging presents a case-based approach to selecting the multimodality imaging strategies for the most frequently encountered urologic disorders. The book provides comprehensive coverage of the latest imaging techniques with an emphasis on newer modalities such as CT intravenous pyelograms (CT-IVP) and MRI for the genitourinary system. Each case opens with a concise description of the clinical presentation, radiologic findings, diagnosis, and differential diagnosis. It then concludes with a detailed discussion of the background, clinical findings, pathology, imaging findings, treatment, and prognosis for that case, and pertinent references.

Features:

- ▶ Nearly 400 high-quality illustrations, including 47 in full color, demonstrate anatomy and pathology
- ▶ Consistent format of each chapter enhances ease of use
- ▶ Bulleted lists of differential diagnoses are ideal for rapid review

Ideal for radiologists, urologists, and nephrologists, this book provides a quick reference for common imaging findings and the most appropriate imaging strategies for specific diseases. Its case-based format also makes it a valuable resource for residents preparing for board examinations.
