For further information about how to submit a manuscript to the European Journal of Pediatric Surgery Reports, including details about the publication fee, please see the author instructions.

The *European Journal of Pediatric Surgery Reports* (EJPS Reports) is an Open Access journal for case reports relating to the surgical care of neonates, infants, and children. A companion to the [European Journal of Pediatric Surgery](#), it covers a broad spectrum of clinical specialties, including abdominal and thoracic surgery, orthopaedics and traumatology, neurosurgery, oncology and anesthesiology. EJPS Reports is an invaluable resource for all clinicians involved in pediatric surgical care.

All articles in EJPS Reports undergo rigorous blind peer review. As an Open Access publication, all reports are made freely available to read and download from Thieme E-Journals.

### Aims and Scope

- ▶ To present rare or exceptional clinical cases in the surgical care of neonates, infants and children
- ▶ To present specific clinical findings that may indicate new or alternative understandings of existing surgical procedures and how they relate to pediatric care
- ▶ To complement the original research and reviews published in the European Journal of Pediatric Surgery with clinical

- data and cases
- To promote the exchange of information between different specialties and sub-specialties involved in the surgical care of children

**Abstracting and indexing:**

DOAJ, ESCI, PubMed Central, EBSCO, Embase, ProQuest

**European Journal of Pediatric Surgery Reports requires that authors follow the ICMJE (International Committee of Medical Journal Editors) recommendations for the Conduct, Reporting, Editing, and Publication of Scholarly work in Medical Journals.**
