The *Journal of Fetal Medicine* is the official journal of the Society of Fetal Medicine and affiliated with the International Society of Ultrasound in Obstetrics & Gynecology. This is a peer-reviewed international journal featuring articles of interest to fetal medicine specialists, geneticists and ultra-sonologists.

The aim of the journal is to communicate the results of original research in the field of fetal medicine. It includes a variety of articles suitable to clinicians and scientific specialists concerned with diagnosis and therapy of fetal disorders. All articles on health promotion of the fetus are acceptable for publication. The major focus is on highlighting the work that has been carried out in India and other developing countries. It also includes articles written by experts from around the world. Types of articles published:

- Original research articles related to fetal care and basic research
- Review articles
- Consensus guidelines for diagnosis and treatment
- Case reports

- Images in Fetal Medicine
- Brief communications

**Abstracting and indexing:**

Google Scholar, EBSCO, ProQuest
