Price : \$54.99

Description

Color Atlas of Human Anatomy, Volume 2: Internal Organs

For over 45 years, the three-volume *Color Atlas of Human Anatomy* has provided readers with a compact review of the human body and its structures. It is ideal for studying, preparing for exams, and as a reference.

The new, 7th edition of *Volume 2: Internal Organs* builds on a robust foundation of scientific knowledge, summarizing in its compactness the macroscopic and topographic anatomy and the functions of the internal organs.

Key highlights:

- ▶ Proven concept of concise texts paired with more than 200 color plates of outstanding anatomical illustrations
- ▶ Microscopic anatomy—if necessary for understanding the respective organ
- ▶ Organ functions are explained in connection with the embryological development of the organs, so many anatomical relationships can be better understood
- ▶ For numerous cross-sectional anatomical illustrations, corresponding CT and MRI images are provided, which helps with the application of anatomical knowledge in clinical practice

Volume 2: Internal Organs is accompanied by *Volume 1: Locomotor System* (ISBN 978-3-13-242443-3) and *Volume 3: Nervous System and Sensory Organs* (ISBN 978-3-13-242451-7).
